

## Kai Wang

### Consultant and College Professor

*I enhance my clients' competitive edge through creativity and problem-solving, using GenAI where applicable*

#### **How long have you been a consultant?**

I have been consulting for two years and teaching college students for 10 years.

#### **Where do you currently work?**

AI Ager, a training and consulting firm focused on enhancing innovation and sales with AI.

#### **How do you spend most of your time at work?**

Research, marketing, sales, writing, networking

#### **Why did you choose this career?**

I want to help people adapt to the AI era.

#### **What did you do to prepare for this career?**

I have a PhD in Technology Management, but this is not required. Experience working with clients, in particular helping other companies solve problems, is more important.

#### **What do you enjoy most about your job?**

Helping people

#### **What do you find most challenging about your job?**

Building relationship from scratch on a large scale

#### **What was one of your first jobs and how did that experience influence your career path?**

I worked as a biotech specialist. But that made me realize that I want something different: more thinking and interacting with people.

#### **What is one piece of advice you would give to a young person who is interested in your profession?**

For consulting: start to understand others' challenges and struggles and think for them.

**KAI'S ADVICE**
